DISPOSITION

XX **Granted** (subject to conditions, see below)

The above action was effective when taken: March 3, 2004, through March 3, 2006

**Action taken by: Paul L. Gretch, Director
Office of International Aviation**

XX The authority granted is consistent with the aviation agreement between the United States and Venezuela.

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated: **XX Holder's certificates of public convenience and necessity**

XX Standard exemption conditions (attached)

Conditions: The route integration authority granted is subject to the condition that any service provided under this exemption shall be consistent with all applicable agreements between the United States and the foreign countries involved. Furthermore, (a) nothing in the award of the route integration authority requested should be construed as conferring upon Arrow rights (including fifth-freedom intermediate and/or beyond rights) to serve markets where U.S. carrier entry is limited unless Arrow notifies the Department of its intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights; and (b) should there be a request by any carrier to use the limited-entry route rights that are included in Arrow's authority by virtue of the route integration exemption granted here, but that are not then being used by Arrow, the holding of such authority by route integration will not be considered as providing any preference for Arrow in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

Remarks: The U.S.-Venezuela aviation agreement does not provide for coterminization of Caracas and Maracaibo. These points may be served only as separate terminal points.

On the basis of data officially noticeable under Rule 24(g) of the Department's regulations, we found the applicant qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) our action was consistent with Department policy; (2) grant of the exemption authority was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within seven (7) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.
